

# LEXINGTON Health Care

*We Specialize in  
Knowing You.*

Being able to provide you with quality care starts with knowing not only what you need, but also what you want. From our staff of highly trained and certified medical professionals and therapists to our supportive and inspiring activity staff, we seek to offer you the best care and service possible.

Our relationship is based on direct communication with you and your family in regards to care and comfort. Our skilled staff members are able to assess each resident's medical needs and assure that those needs are met on a continual basis. Constantly working as a team, we develop proactive plans in conjunction with your physician to ensure your physical and emotional health and well-being. It is comforting to know that you can have both the loving support of your family and the caring dedication of ours.

*Established and  
Experienced.*

Lexington Health Care Centers are privately owned and managed with our corporate office located in the Western suburbs. Our excellence in care and long-term commitment is due to being part of the community since 1984.

## Services Designed for You.

At Lexington we realize that choosing a dialysis provider can be a very difficult decision. Our goal is to provide our residents the comforts and quality care they deserve throughout their stay.

### *The In-House Dialysis Unit*

at Lexington of Streamwood was designed specifically for those individuals who are in need of hemodialysis. Whether your stay with us is short or long-term, we have programs tailored specifically to rehabilitative, restorative, and dementia care.

### *Our Partnership Commitment*

The entire team at Lexington, in conjunction with Fresenius Medical Care, is committed to meeting your medical and personal needs. You and your family will play a key role in partnering with us to design a personalized plan of care. This plan will enable you to achieve your goals and promote your overall wellness.

## Accommodating Amenities.

We take pride in our ability to understand your needs and we work hard to exceed your expectations by providing a variety of amenities including:

### Dialysis Suite

Newly constructed dialysis suite designated for your personal treatments.

- State-of-the-art dialysis equipment
- Individual flat screen TV's
- Cable television
- Wide variety of reading material
- Music
- Hard wood floors
- Comfortable reclining chairs with individual speakers

### Transitional Care Unit

The design of this unit is for those dialysis residents recovering from a hospital stay, requiring short-term, intense therapy.

- Strong emphasis on discharge plans for returning home
- Therapy services available 7 days a week, 2 times per day
- Separate therapy gym featuring the latest in therapy equipment and amenities
- Personalized residences including flat screen TV's, cable television, and electric beds with built-in speakers
- Insurance contracts accepted

## Benefits to Dialysis at Lexington of Streamwood.

- Board certified Medical Director of Nephrology
- Partnership with Fresenius Medical Care, the largest dialysis provider in the world
- Dialysis unit overseen by a specially trained nurse
- Dialysis liaison available for timely on-site assessment
- Permanent Cuffed Catheters, AV Fistulas and Grafts accepted for dialysis access
- Flexible and individualized treatment plans
- Routine dialysis lab work drawn on-site
- Rehabilitation program coordinated with dialysis
- Programs for dementia residents receiving dialysis
- Comfortable environment with accommodating amenities
- Meal oversight by registered dieticians
- Eliminates the cost and time of transporting the resident to an off-site dialysis center
